# Single App Unites Multi-Agency Biometric Searching Mobile WAY

Mobile WAY provides a unified cloud platform for rapid search of federal, state and local law enforcement biometric databases. Its subscription-based Software as a Service (SaaS) model makes Mobile WAY fiscal-friendly for any size agency.

Running on the NEC Digital Platform, the device- and system-agnostic mobile app supports traditional all in one (AIO) biometric mobile devices as well as newer Android and iOS smartphones including contactless biometric capture. The intuitive experience simplifies searches across systems, and the subscription service eliminates the hassle of license management.

## Key Features

Agnostic Biometric Mobile App including Android and Apple iOS

Multi-Modal Capture of Face, Finger & More including Contactless Fingerprint Capture

Multi-Modal Credential Reading including mDL and eMRTD

Multi-Modal Data Entry and Reading including Barcodes, Magstripe, MRZ and SmartCard

Local WL and Remote Multi-Modal Searching

Mobile ID Platform Service for Data Exchange & Reporting

Available as SaaS and OpEx Model  
- Compatible with FirstNet and NLETS  
- Hosted in Microsoft Azure Gov't Cloud

NEC National Security Solutions, Inc.  
Arlington, VA  
[necnss.com](http://necnss.com)

NEC National Security Solutions, Inc. (NSS), is a leading provider of biometric identity and AI technology for federal government agencies in defense, intelligence, law enforcement, and homeland security agencies. Based in Arlington, Va., NSS deploys proven groundbreaking technology for access control, identity verification, scene processing, advanced analytics, fiber optic sensing, border control and transportation security, among other applications. The company was launched in 2020 as a wholly owned subsidiary of NEC Corporation of America and will operate under a Special Security Agreement (SSA) with the US Government as a FOCI-mitigated entity, free of foreign ownership, control, and influence. It provides full-service solutions for large agencies using the intellectual property and resources of the global NEC brand. The NEC Corporation invests an estimated \$1.01 billion annually in R&D, holds 47,000 patents, and has more than 110,000 employees in 160+ countries.
